

Waystones:

The Waystones are ancient religious sites and the places where the ancient folks drew their powers from. They can vary in size, some being the size of a chair, while the largest, that resides in the ancient capital, is the size of an 8 story house.

Before the curse, they had found a way to transport themselves using these, which is a power the player will be able to use.

The way the player will be able to use them is to teleport from Waystone to Waystone and to be able to respawn at the closest activated Waystone. So they will act as a fast travel system and checkpoint system. But they must be manually activated

Chant of the Fay

The chant of the Fay is a way to draw out the spirits of different elements, called fays. By using your voice and different chants, you can draw these fays out and have them perform tasks for you. For example, drawing out the fay of the flame and have them light a campfire.

Different fays answers to different voices, depending on their preference. So for example an earth fay tends to like when you sing with a bass tone, while a fire fay might prefer more of a soprano.

This will make it also that you are naturally more gifted in certain parts of chants, as you might have more of a bassy voice. While you might entice more minor spirits of the other part of the spectrum, they will not have as much power.

You can of course train your voice to increase your vocal range and as such reach other kinds of fay. There are also certain flutes, how have been magically enhanced to contain a certain tone and inscribed with the chant on the inside of the flute, that can be used to reach certain fays. These only have one sort of chant in them, and cant is combined.

In the full game, you would first choose how your voice is. Is your character a bass or a soprano? Then you will also have to train your voice. If you want to be able to draw out the more powerful fay, you will have to have a better voice. You can also train yourself to get a greater range to be able to reach other kinds of fay.

In the slice of the game, you will only have access to one spell, that will only play a tone when you use it.
